A cross-sectional view of a substrate 500. The substrate has a central cavity. A layer 501 is formed on the top surface of the substrate, covering the top edges of the cavity.

Diagram of a second example of a container 600. It features a bulbous body 602 and a neck 601.

Figure 7 is a schematic diagram of a pair of vertically aligned, vertically elongated, hourglass-shaped components. Each component has a central narrow neck and two bulbous sections. The right component is labeled 701.
